EXAMINER'S AMENDMENT

1. Non-elected claims 3, 11-27 and 29-33 are being rejoined, since the generic claims are now allowable.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Im on 16 May 2005.

The application has been amended as follows:

In the Claims'

Replace claim 6 with the following:

--The illumination system of claim 1, wherein said first reflector structure has a coating that reflects substantially only a pre-specified portion of the electromagnetic radiation spectrum selected from the group consisting of: visible light radiation, ultraviolet radiation, infrared radiation, a pre-specified band of wavelengths of radiation, and a specific color of radiation.--

Replace claim 25 with the following:

--The illumination system of claim 23, wherein the first reflector structure has a coating that reflects substantially only a pre-specified portion of the electromagnetic radiation spectrum selected from the group consisting of: visible light radiation,

ultraviolet radiation, infrared radiation, a pre-specified band of wavelengths of radiation, and a specific color of radiation.--

Replace claim 27 with the following

--The illumination system of claim 23, wherein the first reflector structure has a coating that transmits substantially only a pre-specified portion of the electromagnetic radiation spectrum selected from the group consisting of: visible light radiation, ultraviolet radiation, infrared radiation, a pre-specified band of wavelengths of radiation, and a specific color of radiation.--

These amendments are necessary to make all the dependent claims narrower than the claims from which they depend.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance. The terminal disclaimer filed 18 April 2005 has been accepted, and it obviates the double patenting rejections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
